

## **Fact Sheet – Top 10 biggest savings for non-concessional patients**

The table below shows the 10 biggest savings for non-concessional patients from 1 October 2016.

The savings for these medicines may vary depending on a number of factors such as formulation and strength, brand, the concessional status of the patient and any discretionary fees added or discounting by the pharmacist.

For more specific information on your medicine talk to your pharmacist or search the full list of medicines and brands on the [PBS website](#).
