Dear Sir/Madam,

**RE: POST-MARKET REVIEW OF AUTHORITY REQUIRED PBS LISTINGS**

GlaxoSmithKline Australia (GSKA) welcomes the timely review of Authority Required PBS listings and is fully supportive of the stated objective of improving patient safety and care by reducing red tape and administrative burden for health professionals. GSKA has no comments to make regarding the proposed Terms of Reference of the review, which we consider appropriately address this objective.

GSKA is committed to ensuring the appropriate use of its medicines and appreciates the opportunity to engage as a stakeholder in this review. We would welcome the opportunity to comment on specific Authority Required listings during the public consultation to suggest areas for simplification of the current administrative processes for prescribing, which may be adversely affecting patient care.
