Dear 

**RE: Call for submissions: Review of self-monitored blood glucose test strips
for people with type 2 diabetes mellitus.**

We supply blood glucose meters and test strips for both type 1 & 2 diabetics through Diabetes Australia and pharmacy wholesalers. We do not have any data of the split of our products to type 1 & 2 diabetics so we are unable to provide any more useful information.

If we can be of any further assistance then please do not hesitate to contact us.

Yours sincerely

Vivienne Zammit

Technical Services Specialist
